

REMARKS:

Applicant received a Notice of Allowance mailed October 5, 2004 stating that the Examiner had allowed claims 1-27. After receiving the Notice of Allowance, Applicant's undersigned attorney discovered that claim 5 had a grammatical error, and that claim 15 did not provide antecedent basis for "said third switch." Applicant has amended claim 15 to recite "said second ignition switch," which has proper antecedent basis. The amendments to claims 5 and 15 have not introduced any new limitations or narrowed the scope of those claims, but have merely corrected some clerical errors. Although the Examiner did not object to or reject the claims because of the noted errors, and Applicant does not believe that the claims as previously written are indefinite, Applicant submits these amendments to correct these formal matters. Entry of these amendments is proper since they do not change the scope of claims 5 and 15 and do not necessitate a new search or examination. Although Applicant does not believe any fees are necessitated by this amendment, the Commissioner is hereby authorized to charge payment of any additional fees associated with this amendment, or credit any overpayment, to Deposit Account No. 23-1925.

Applicant has also amended various paragraphs of the specification to recite reference number "67" as being directed to a switch. Applicant inadvertently used reference number "63" to refer both to the switch and to a conductor (see page 8, line 4). Applicant has also submitted a drawing amendment herewith to formalize Figure 4, as requested by the Draftsperson, as well as incorporate this change.

If the Examiner has any questions about this amendment, the Examiner is invited to contact the undersigned attorney at (312) 321-4713.

Dated: December 29, 2004

Respectfully submitted,

Andrew D. Stover
